

FOREST STEWARDSHIP COUNCIL®
UNITED STATES

The mark of responsible forestry
FSC® F000232

October 19, 2022

Dear Element5 Team:

On behalf of the Forest Stewardship Council, please accept our sincere congratulations for earning a 2022 FSC Leadership Award. As Ontario's first cross-laminated timber manufacturing plant, Element5 is creating low-carbon building materials for the 21st century. With so much interest in mass timber, Element5 is offering a valuable service into a rapidly growing market. At the same time, you are reminding people that sourcing wood from responsibly managed forests is the key to climate-smart mass timber.

The FSC Leadership Awards celebrate forest owners, builders, architects, retailers, paper mills, manufacturers, environmental organizations and many others who contribute to the movement toward responsible sourcing and forest management.

Award winners like Element5 give us hope in the face of big challenges like climate change by showing that it's possible to promote resilient forests even as we use forest products every day.

Thank you for your hard work and dedication. We sincerely appreciate the work you do.

Best wishes,

Derik Frederiksen
President, FSC US
